

# SAYALI JADHAV

Full Stack Developer | AI Integration & Cloud Solutions

Pune, India | +91 8010139938 | sayalijadhav2017@gmail.com | linkedin.com/in/sayali-jadhav-1a04ba20a

## PROFILE

Full Stack Developer with 4.5+ years building and shipping AI-integrated web and desktop applications across Laravel, Node.js, and React. Specializes in conversational AI (ChatGPT, Groq, Azure Realtime Audio) and Azure cloud deployment, having delivered voice assistants, chatbots, and automation tools that are actively used in production. Known for translating ambiguous requirements into scalable, well-tested systems and for owning projects end-to-end, from architecture through CI/CD deployment.

## TECHNICAL SKILLS

**Frontend:** HTML, CSS, JavaScript, jQuery, TypeScript, Bootstrap

**Backend:** PHP (Laravel, CodeIgniter), Node.js, Python, MySQL

**Cloud & DevOps:** Azure App Services, Azure Functions, Azure MySQL Flexible Servers, GitHub Actions, Azure DevOps (CI/CD)

**AI & Integrations:** OpenAI / ChatGPT APIs, Groq, Azure Realtime Audio, Plivo, Razorpay, Text Local SMS, Google Authentication

**Version Control:** Git, GitHub Desktop, SVN

## PROFESSIONAL EXPERIENCE

**Senior Software Engineer** | Paradiso Software Pvt. Ltd.

May 2026 – Present

*Stack: Node.js, Express.js, PostgreSQL, Electron, React, OpenAI APIs, Playwright*

### Paradiso Tracker — Desktop Activity Monitoring

- Built a cross-platform Electron desktop app from scratch, delivering a lightweight, optimized 105MB installer for fast onboarding
- Architected a full-stack activity-monitoring system with a Node.js API backend and real-time cloud synchronization, deployed across the company's 70+ employee workforce
- Designed an analytics dashboard surfacing key productivity metrics; built an end-to-end Playwright test suite that proactively caught bugs before release

### LinkedIn Automation

- Developed a LinkedIn automation module managing outreach across 50+ LinkedIn accounts, sustaining 500+ requests/account daily to scale lead generation

**Senior Software Engineer** | Earnwealth Solutions Pvt. Ltd.

Jun 2024 – Apr 2026

- Integrated ChatGPT, Groq, and Plivo APIs to automate customer-facing workflows, significantly reducing manual handling time across support and outreach processes
- Built and shipped an AI-powered ChatBot and VoiceBot in Laravel, achieving 90%+ response accuracy on customer interactions
- Deployed and maintained production apps on Azure (App Services, Functions), streamlining releases with GitHub Actions and Azure DevOps CI/CD pipelines
- Managed version control and code review workflows via Git/GitHub within a team of 20+ software engineers

### Raiya — Voice Call Assistance System (Laravel, Node.js)

- Built a real-time voice communication system using speech recognition and synthesis, architected to handle up to 100,000 calls/minute in production and validated through load testing at 10,000 concurrent calls
- Integrated Azure Realtime Audio and Web PubSub Services to enable low-latency, two-way voice interaction
- Provisioned Azure Web Apps, Functions, and MySQL Flexible Servers, and built the CI/CD pipeline for streamlined, repeatable deployments

### AI ChatBot System (Laravel)

- Integrated the ChatGPT API for natural-language interaction and built the real-time conversational UI end-to-end
- Owned backend request-response handling and testing, achieving 90%+ response accuracy, which improved further as the model was retrained on real usage data

EVyaas — Student Test Performance Analysis (Laravel)

- Designed test-creation and student-management features adopted by multiple colleges
- Implemented SMS-based parental consent workflows to ensure policy-compliant data handling for underage users
- Automated evaluation and insight-generation workflows, significantly reducing manual grading time

Software Engineer | Mulika InfoTech Pvt. Ltd.

Jan 2022 – Jun 2024

Worked within a 20+ person engineering team

Dairy-ERP System (CodeIgniter)

- Built an ERP platform for dairy operations and daily milk-purchase tracking
- Integrated Razorpay for payments and SMS alerts, automating transaction notifications end-to-end
- Optimized database design and query performance to support real-time operations

Planner — Employee Management System (CodeIgniter)

- Developed a task-planning and employee-scheduling system for internal team use
- Implemented role-based access control (Admin, Employee) and an internal message board, improving day-to-day cross-team communication

Additional Projects

- Delivered WordPress and CodeIgniter projects for enterprise and e-commerce clients (names withheld under NDA)

EDUCATION

M.Sc. Computer Science | Savitribai Phule Pune University

2020 – 2022

B.Sc. Computer Science | Savitribai Phule Pune University

2017 – 2020

AWARDS

- Earnwealthian of the Month — Earn Wealth Solutions Pvt. Ltd. (04/2025) — recognized for exceptional performance, successful AI integrations, and consistent contributions to project delivery and team efficiency
- Best Team Player 2023–2024 — Mulika InfoTech Pvt. Ltd. (02/2024) — appreciated for fast, reliable task execution and fostering a supportive, efficient team environment
